Compact Electric Tractor

SOLECTRAC
by Ideanomics

THE 25 HP CATEGORY e25H (HYDROSTATIC) IS A VERSATILE, 4WD TRACTOR, GREAT FOR **HOBBY FARMS, GOLF COURSES, SPORT FIELDS, EQUESTRIAN CENTERS AND MUNICIPALITIES.**

The e25H Hydrostatic Electric Tractor gives you more control, flexibility, and power. You can easily adjust your speed and direction using the forward and reverse pedals instead of stopping and changing gears. With the independent PTO, you can control the PTO speed regardless of the travel speed. The mid-PTO gives you more options for implements, and a larger hydraulic pump increases the hitch lift capacity to 1763 pounds.

The e25B Backhoe is available on the hydrostatic and geared versions of the e25 Electric Tractor. From moving dirt to digging a trench or clearing trees and brush, the e25 Backhoe is a highly capable earth mover in a compact package. The backhoe comes standard with a 12" bucket and an optional thumb kit is available.
